evolution since the early 1970s. Some of the most significant and interesting of these chapters have been carefully selected and brought together in this volume, which will be a valuable resource for students of the region." – Dr Tim Huxley, Executive Director, The International Institute for Strategic Studies-Asia, Singapore "At a time when Southeast Asia is under-going rapid changes, this compilation of essays is a must-read for all those who seek to understand ASEAN and its member states. Southeast Asia is more than ASEAN and as an inter-state organization that works by consensus, ASEAN can do no more than what its members allow it to do." – Bilahari Kausikan, Chairman Middle East

Institute, National University of Singapore and former Permanent Secretary of the Ministry of Foreign Affairs, Singapore "For the last fifty years, ISEAS has been the 'go to' place for students and scholars from all over the world seeking to develop a deeper knowledge of Southeast Asia. Since it first appeared in 1974, Southeast Asian Affairs has provided thoughtful and timely analysis of critical developments in the region annually. This carefully chosen collection of some of these essays authored over the years brilliantly maps out the contours of change and transformation that have shaped Southeast Asia's recent history, and captures the dynamism of this fascinating region." – Joseph Chinyong Liow,

Dean, College of Humanities, Arts, and Social Sciences and Dean, S.Rajaratnam School of International Studies, Nanyang Technological University "The book *Turning Points and Transitions*, commemorating the 50th anniversary of the founding of ISEAS, is like a literary time machine. It takes us back through contemporary expert commentary and analysis to the major forces and events that shaped the political and economic evolution of the Southeast Asia region. A new generation of scholars has replaced typewriters with computers, but many of the roots of the issues and conflicts that ISEAS will be dealing with in the future are to be found in the past that is so ably documented in this volume." – Donald

This book focuses on  
human resource  
management (HRM) in  
the country context  
of Brunei Darussalam,  
analysing, comparing  
and contrasting  
domestic enterprises  
(DEs) with  
multinational  
enterprises (MNEs),  
and oil and gas with  
non-oil and -gas  
sectors, and draws  
out the comparative  
lessons for  
understanding the  
potential and  
performance

consequences of HR  
interventions in  
resource-centred  
national economies.  
Work carried out more  
recently drawing a  
contrast between  
Asian capitalisms has  
established a number  
of important defining  
aspects inherent in  
economies in Asia;  
this helps to present  
approaches to  
establishing the way  
in which Brunei may  
be seen to be aligned  
with, and depart  
from, other business  
systems and  
frameworks in Asia.  
The existing  
literature highlights  
a trend towards  
focusing on the Asian  
context; however,  
most studies have  
focused on specific  
Asian countries, and  
research conducted in  
other contexts  
remains scarce. As  
the region gains  
economic prosperity,  
it is increasingly  
important to conduct  
some work that will  
be able to highlight  
the relevant HRM  
system(s) for other  
Asian contexts.  
Although some  
emerging Asian  
economies are still  
quite far from

achieving developed  
nation status, it is  
however essential to  
understand the HRM  
systems prevalent in  
such economies as  
they can contribute  
greatly to the  
economic development  
there. Hence, this  
book highlights the  
importance of viewing  
the development and  
nature of HR in  
Brunei and locates  
the practice of HRM  
within the wider  
economic and  
political context,  
and draws out the  
theoretical and  
practical  
implications for  
understanding  
continuity in change  
in HR practice, and  
similarities with and  
differences from  
other emerging  
markets. It will be  
of interest to  
researchers,  
academics, and  
students in  
international and  
comparative human  
resource management.
