off the tenth annual

the Capitol, eighteen-

Snow is preparing for
his one shot at glory
as a mentor in the
Games. The once-

has fallen on hard
times, its fate hanging
on the slender chance
that Coriolanus will
be able to outcharm,
outwit, and
outmaneuver his
fellow students to
mentor the winning

against him. He's been
given the humiliating
assignment of
mentoring the female

tribute from District 12, the lowest of the low. Their fates are now completely intertwined - every choice Coriolanus makes could lead to favor or failure, triumph or ruin. Inside the arena, it will be a fight to the death. Outside the arena, Coriolanus starts to feel for his doomed tribute . . . and must weigh his need to follow the rules against his desire to survive no matter what it takes.

When funnyman Dave Barry asked readers about their least favorite tunes, he thought he was penning just another installment of

his weekly syndicated humor column. But the witty writer was flabbergasted by the response when over 10,000 readers voted. "I have never written a column that got a bigger response than the one announcing the Bad Song Survey," Barry wrote. Based on the results of the survey, Dave Barry's Book of Bad Songs is a compilation of some of the worst songs ever written. Dave Barry fans will relish his quirky take. Music buffs, too will

appreciate this humorous stroll through the world's worst lyrics. The only thing wrong with this book is that readers will find themselves unable to stop mentally singing the greatest hits of Gary Puckett.

Earth refugees threaten a peaceful space settlement in this influential novel from the Golden Age science fiction author of 2001: A Space Odyssey. More than two thousand years in the future, a small human colony thrives on the ocean paradise of Thalassa—sent there centuries ago to continue the human race before Earth ' s destruction. Thalassa ' s resources are vast—and the

human colony has lived a bucolic life there. But their existence is threatened when the spaceship Magellan arrives on their world—carrying one million refugees from Earth, fleeing the dying planet. Reputed to be Arthur C. Clarke's favorite novel, *The Songs of Distant Earth* addresses several fascinating scientific questions unresolved in their time—including the question of why so few neutrinos from

the sun have been measured on Earth. In addition, Clarke presents an inventive depiction of the use of vacuum energy to power spacecraft—and the technical logistics of space travel near the speed of light. “Clarke's simple, musical style never falters in this sobering yet far from bleak commentary on humanity's longing for the stars. Highly recommended.” —*Library Journal*

David Metzger investigates how and why

the styles of ballads have changed over a period of more than seventy years, offering a definition of the genre and discussing the influences of celebrated performers including Frank Sinatra, Aretha Franklin, and Whitney Houston. The Ballad in American Popular Music Dutton Adult
Death is always the issue-in life, and in the Western. Joel and Ethan Coen's The Ballad of Buster Scruggs is a movie of six Western stories. In each, our common

destination is approached by a different road. Through each, diverse characters hurry for their final appointment: Oregon Trail-travelers, a gold prospector, a motley crew of stagecoach passengers, a high-plains drifting bank robber, even a singing cowboy. These six stories escort them with a care that either respects, or mocks, the dignity of all. The film stars Tom Waits, James Franco, Liam Neeson, Tim Bake Nelson and Zoe Kazan and is shot with the harsh grandeur of the classic John Ford westerns.
