It is widely accepted that English is the first truly global language and lingua franca. Anna Wierzbicka, the distinguished linguist known for her theories of semantics, has written the first book that connects the English language with what she terms "Anglo" culture. Wierzbicka points out that language and culture are not just interconnected, but inseparable. She uses original research to investigate the "universe of meaning" within the English language (both grammar and vocabulary) and places it in historical and geographical perspective. This engrossing and fascinating work of scholarship should appeal not only to linguists and others concerned with language and culture, but the large group of scholars studying English and English as a second language.

Diese Bibliographie enthält in erster Linie linguistische Publikationen, d.h. Monographien und Studien, die in verschiedenen wissenschaftlichen Zeitschriften und Sammelwerken erschienen sind, die sich mit der Erforschung der türkischen Sprache in der Türkei befassen. Darüber hinaus finden sich hier verschiedene Handbücher, Bibliographien, Wörterbücher und viele Textausgaben, die zur Erforschung der türkischen Sprache und Sprachgeschichte unbedingt erforderlich sind. Einige Werke, die sich nur am Rande mit dem Thema oder nicht ausschließlich mit der türkischen Sprache in der Türkei, sondern auch mit anderen Türkischen Sprachen befassen, haben ebenfalls ihren Platz in diesem Band gefunden. Das betrifft vor allem die sowjetische Turkologie. Der Band enthält auch viele Rezensionen, obwohl es nicht vorrangiges Ziel war, diese in großem Umfang zu sammeln. Wie im Titel angegeben umfasst der Band die Zeitspanne von 1950 bis 2000. Türkische Publikationen machen den Hauptanteil der Erwerbungen aus, aber Werke von Autoren von außerhalb der Türkei sind ebenfalls reichlich zu finden. Als Ergebnis jahrelanger Sammelarbeit enthält der Band nun ca. 8.500 Einträge. Beim Gebrauch der Bibliographie ist die Liste der Abkürzungen, in der man die Abkürzungen der Zeitschriften (kursiv gesetzt) und der Reihen (normal gesetzt) findet, sehr nützlich. Sie enthält allerdings auch Zeitschriften und Serien, die nicht mehr veröffentlicht oder weitergeführt werden. — Auf die alphabetische Bibliographie folgen die Indices, die die bibliographischen Artikel nach Namen und Jahreszahl ordnen.

Das zehnte Jahr der Internationalen Innsbrucker Ringvorlesungen war Anlass, Stand und Perspektiven der Translationswissenschaft selbst auf den Prüfstand zu stellen. "The Turkic languages are spoken today in a vast geographical area stretching from southern Iran to the Arctic Ocean, and from the Balkans to the great wall of China. There are currently twenty literary languages in the group, the most important among them being Turkish with over seventy million speakers; other major languages covered include Azeri, Bashkir, Chuvash, Gagauz, Karakalpak, Kazakh, Kirghiz, Noghay, Tatar, Turkmen, Uyghur, Uzbek, Yakut, Yellow Uyghur and languages of Iran and South Siberia. The Turkic Languages is a reference book which brings together detailed discussions of the historical development and specialized linguistic structures and features of the languages in the Turkic family. Seen from a linguistic typology point of view, Turkic languages are particularly interesting because of their astonishing morphosyntactic regularity, their vast geographical distribution and their great stability over time. This volume builds upon a work which has already become a defining classic of Turkic language study. The present, thoroughly revised edition updates and augments those authoritative accounts, and reflects recent and ongoing developments in the languages themselves, as well as our further enhanced understanding of the relations and patterns of influence between them. The result is the fruit of decades-long experience in the teaching of the Turkic languages, their philology and literature, and also of a wealth of new insights into the linguistic phenomena and cultural interactions defining their development and use, both historically and in the present day. Each chapter combines modern linguistic analysis with traditional historical linguistics; a uniform structure allows for easy typological comparison

between the individual languages. Written by an international team of experts, The Turkic Languages will be invaluable to students and researchers within linguistics, Turcology and Near Eastern and Oriental Studies"--
