Fans of Kate DiCamillo and Linda Urban will love *The Thing About Georgie*, a warm and humorous story starring an unforgettable young boy with dwarfism, from acclaimed author Lisa Graff. As far as Georgie is concerned, everyone has a "thing." The thing about poodles is that Georgie Bishop hates to walk them. The thing about Jeanie the Meanie is that she would rather write on her shoe than help Georgie with their Abraham Lincoln project. The thing about Andy's nonna is that she kisses Georgie's cheeks and doesn't speak one word of English. The thing about Georgie's mom is that she's having a baby—a baby who will probably be taller than Georgie very, very soon. The thing about Georgie . . . well, what is the thing about Georgie?

"Spurious Correlations ... is the most fun you'll ever have with graphs."--Bustle
Military intelligence analyst and Harvard Law student Tyler Vigen illustrates the golden rule that "correlation does not equal causation" through hilarious graphs inspired by his viral website. Is there a correlation between Nic Cage films and swimming pool accidents? What about beef consumption and people getting struck by lightning? Absolutely not. But that hasn't stopped millions of people from going to tylervigen.com and asking, "Wait, what?" Vigen has designed software that scours enormous data sets to find unlikely statistical correlations. He began pulling the funniest ones for his website and has since gained millions of views, hundreds of thousands of

likes, and tons of media coverage. Subversive and clever, Spurious Correlations is geek humor at its finest, nailing our obsession with data and conspiracy theory.

In 1974, French aerialist Philippe Petit threw a tightrope between the two towers of the World Trade Center and spent an hour walking, dancing, and performing high-wire tricks a quarter mile in the sky. This picture book captures the poetry and magic of the event with a poetry of its own: lyrical words and lovely paintings that present the detail, daring, and--in two dramatic foldout spreads-- the

vertiginous drama of Petit's feat. *The Man Who Walked Between the Towers* is the winner of the 2004 Caldecott Medal, the winner of the 2004 Boston Globe - Horn Book Award for Picture Books, and the winner of the 2006 Carnegie Medal for Excellence in Children's Video.

The Kama Sutra of Vatsyayana by Vatsyayana
The Kama Sutra is an ancient Indian Hindu text

widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vatsyayana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism or a collection of such aphorisms in the form of a manual. Contrary to popular perception, especially in the western world, the Kama Sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life, and other aspects pertaining to pleasure-oriented faculties of human life. The Kama Sutra does reveal that Vatsyayana lived the life of a religious student, likely in Benares, and spent his time engaged in the contemplation of the highest Deity. Scholars believe that the tone

Vatsyayana takes towards youth in the Kama Sutra suggests that he likely spent many years studying religion before beginning his life's work compiling the wisdom of the sages. Indeed, Vatsyayana was less of a groundbreaking philosopher and apparently more of a diligent academician. Besides transcribing the Kama Sutra more than 300 years after the Shastras had already been passed down, he also transcribed the Nyaya Sutras, an ancient Indian text of philosophy that was composed by the buddha Gotama in the 2nd century B.C. Whereas the Kama Sutra tackles kama (or sensual pleasures), the Nyaya Sutra delineates paths for achieving moksha, or spiritual liberation from the cycle of birth and death.

Poe ' s preference for not naming his narrators is potent once again in "The Tell-Tale Heart", a story that is trying so hard to appear sane, but fails miserably in the end. With minute

preparations, perfect calculations, and even more precise execution of the conceived gruesome act, the narrator successfully fulfils his purpose, only to be lost in a battle with his sanity and guilt afterwards. Backed by the numerous movie and theatrical adaptations, the story is considered one of Poe ' s most popular and critically acclaimed. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1845), "The Black Cat" (1843), and "The Gold-Bug" (1843).
