A Guide to Library Research in Music introduces the process and techniques for researching and writing about music. This informative textbook provides concrete examples of different types of writing, offering a thorough introduction to music literature. It clearly describes various information-searching techniques and library-based organizational systems and introduces the array of music resources available. Each chapter concludes with learning exercises to aid the students' concept application and skill development. Appendixes provide short cuts to specific topics in library organizational systems, including Library of Congress Subject Headings and Classification. The concluding bibliography provides a quick overview of music literature and resources, emphasizing electronic and print publications since 2000, but including standard references that all music researchers should know.
