'A book grows rather like a snow crystal. One doesn't write it from start to finish but, in greater or less degree, all at the same time ... that is why my book is not in chronological order; for everything is of the present, held in the moment when thought captures it.' Kurt Diemberger's *Summits and Secrets* is a mountaineering autobiography like no other.

Writing anecdotally, Diemberger provides an abstract look into his life and climbing career that is both fascinating and awe-inspiring to navigate. Known for surviving the 1986 K2 disaster – an account described in harrowing detail in his award-winning book *The Endless Knot* – Diemberger provides a captivating insight into his earlier climbs in *Summits and Secrets*. From climbing his first peak in the Tyrol mountains of Austria, to the epoch-making first ascent of Broad Peak with Hermann Buhl in 1957, and then summiting Dhaulagiri in 1960, where he became one of only two people to have made first ascents of two mountains over 8,000 metres, Diemberger recounts his experiences with wit, honesty and an infectious enthusiasm: 'Every climber knows the thrill ... the unique inexplicable tension, which the regular shapes of the mountain world awake in him: huge pyramids, enormous rectangular slabs, piled-up triangles of rock, white circles, immense squares – the thrill of simplicity of shape and outline and the excitement of mastering them, to an unbelievable extent, by his own efforts, his own power ...' *Summits and Secrets* is a must-read for those wanting an insight into the life and achievements of one of the toughest high-altitude climbers the world has ever known.

In 60 B.C., ten-year-old Guiamo Durmius Stolo, an exceptionally gifted Roman orphan, is abandoned in Gaul. Left to fend for himself, Guiamo is set onto a path of legend. Recognized by the gods as having world-changing talents, he is given a weapon that changes his destiny and the world's forever. Combining legitimate legends with actual historical events, Marshall Best weaves an epic story that portrays the ancient world as it might have been, a world which the ancient historians recorded as fact; a time when gods ruled the earth and strange creatures dominated the land. It is the era of civilized conquerors exploring distant and primitive new lands. Scant recordings left to us today only touch on the fringe of the fantastic and brutal reality that existed in those distant lands of the west. Into this age, young Guiamo enters the world stage as the great game-changer, and by his hand the gods and beasts become destined to disappear into myth and legend.

As a boy, climbing legend Reinhold Messner was inspired by another legend: George Mallory's tragic final ascent of Mount Everest in 1924. To Messner, and to thousands of others, Mallory's attempt--whether or not it succeeded--remains the greatest exploit in the annals of mountain climbing. Though Mallory's body was finally found, we have lost, Messner believes, the spirit that guided him; summiting Everest has become merely a corporate challenge and a matter of technology, not a rendezvous with destiny. Using the British climber's journals and letters, Messner thrillingly re-creates Mallory's three assaults on Everest, including his final ascent. Here is both an investigation into the death of George Mallory and a deeply felt homage--to a mountain, to the spirit of an age, and to the man who inspired those who followed in his footsteps.

A rediscovered mountaineering classic and the extraordinary true story of a daring escape up Mount Kenya by three prisoners of war. When the clouds covering Mount Kenya part one morning to reveal its towering peaks for the first time, prisoner of war Felice Benuzzi is transfixed. The tedium of camp life is broken by the beginnings of a sudden idea - an outrageous, dangerous, brilliant idea. There are not many people who would break out of a P.O.W. camp, trek for days across perilous terrain before climbing the north face of Mount Kenya with improvised equipment, meagre rations, and with a picture of the mountain on a tin of beef among their more accurate guides. There are probably fewer still who would break back in to the camp on their return. But this is the remarkable story of three such men. No Picnic on Mount Kenya is a powerful testament to the human spirit of revolt and adventure in even the darkest of places. "The history of mountaineering can hardly present a parallel to this mad but thrilling escapade" - Saturday Review "A most extraordinary prisoner-of-war and escape story" - New Yorker "A mad venture and a gallant tribute to man's deep yearning for freedom" - Kirkus Reviews "The book crackles with the same dry humour as its title. It contains the prison-yard bartering and candlelight stitching that mark a classic jailbreak yarn; the encounters with wild beasts in Mount Kenya's forest belt are as gripping, and the descriptions of sparkling glaciers as awe-inspiring, as any passage in the great exploration diaries of the early 20th century" - The Economist

This book tells the story of the ancient land named Chianti and the modern wine appellation known as Chianti Classico. In 1716, Tuscany's penultimate Medici ruler, Cosimo III, anointed the region of Chianti, along with three smaller areas in the Florentine State, as the world's first legal appellations of origin for wine. In the succeeding centuries, this milestone was all but forgotten. By the late nineteenth century, the name Chianti, rather than signifying this historic region and its celebrated wine, identified a simple Italian red table wine in a straw-covered flask. È In the twenty-first century, Chianti Classico emerged as one of Italy's most dynamic and fashionable wine zones. Chianti Classico relates the fascinating evolution of Chianti as a wine region and reveals its geographic and cultural complexity. Bill Nesto, MW, and Frances Di Savino explore the townships of Chianti Classico and introduce readers to the modern-day winegrowers who are helping to transform the region. The secrets of Sangiovese, the principal vine variety of Chianti, are also revealed as the book unlocks the myths and mysteries of one of Italy's most storied wine regions. The publication of Chianti Classico coincides with the three hundredth anniversary of the Medici decree delimiting the region of Chianti on September 24, 1716.

In 1970, Chris Bonington and his now-legendary team of mountaineers were the first climbers to tackle a big wall at extreme altitude. Their target was the south face of Nepal's Annapurna: 12,000 feet of steep rock and ice leading to a 26,454-ft. summit. As serious armchair climbers will tell you, Annapurna South Face is better than all but a handful of equally gripping classics. One could also argue that all that has happened in the big mountains in the past 30 years has come out of this expedition and out of this book. Bonington and his team—most of whom subsequently died in the mountains—represented a kind of "greatest generation" of modern mountaineers. They pioneered a new, bolder approach to high altitude climbing, and this book is about how they hit the big time.

This is a photographic record of Leo Dickinson and his intrepid team of Australian and British pioneers who spent years preparing to gaze down on the summit of the highest mountain in the world. For the sake of a stupendous flight lasting less than an hour, this unlikely collection of rugged individuals fought, co-operated, quarrelled, laughed and occasionally cried. As well as this entertaining account of an historic first, they brought back an entirely new view of an awesome Himalayan peak.
