Primetime Blues Farrar, Straus and Giroux

Marion and Shiva Stone are twin brothers born of a secret union between a beautiful Indian nun and a brash British surgeon. Orphaned by their mother's death and their father's disappearance and bound together by a preternatural connection and a shared fascination with medicine, the twins come of age as Ethiopia hovers on the brink of revolution. Moving from Addis Ababa to New York City and back again, *Cutting for Stone* is an unforgettable story of love and betrayal, medicine and ordinary miracles—and two brothers whose fates are forever intertwined.

Tide Epigram Books

Forecasting is required in many situations. Stocking an inventory may require forecasts of demand months in advance. Telecommunication routing requires traffic forecasts a few minutes ahead. Whatever the circumstances or time horizons involved, forecasting is an important aid in effective and efficient planning. This textbook provides a comprehensive introduction to forecasting methods and presents enough information about each method for readers to use them sensibly.

Campaign Finance Reform Proposals of 1983 Atomic Dog Publishing

A landmark study by the leading critic of African American film and television *Primetime Blues* is the first comprehensive history of African Americans on network television. Donald Bogle examines the stereotypes, which too often continue to march across the screen today, but also shows the ways in which television has been invigorated by extraordinary black performers, whose presence on the screen has been of great significance to the African American community. Bogle's exhaustive study moves from the postwar era of Beulah and Amos 'n' Andy to the politically restless sixties reflected in *I Spy* and an edgy, ultra-hip program like *Mod Squad*. He examines the television of the seventies, when a nation still caught up in Vietnam and Watergate retreated into the ethnic humor of *Sanford and Son* and *Good Times* and the politically conservative eighties marked by the unexpected success of *The Cosby Show* and the emergence of deracialized characters on such dramatic series as *L.A. Law*. Finally, he turns a critical eye to the television landscape of the nineties, with shows such as *The Fresh Prince of Bel Air*, *I'll Fly Away*, *ER*, and *The Steve Harvey Show*. Note: The ebook edition does not include photos.

It's about Time Greenwood Publishing Group

Based on extensive interviews and archival material, *The First Wave* tells the story of the opposition in Singapore in its critical first thirty years in Parliament. Democratization has been described to occur in waves. The first wave of a democratic awakening in post-independence Singapore began with J. B. Jeyaretnam's victory in the Anson by-election of 1981. That built up to the 1984 general election, the first of many to be called a "watershed", in which Chiam See Tong was also elected in Potong Pasir. After their successes in 1991, the opposition began dreaming of forming the government. But their euphoria was short-lived. Serious fault lines in the leading Singapore Democratic Party (SDP) rose to the surface almost immediately after the opposition victories of 1991, and the party was wiped out of Parliament by 1997. The opposition spent the next decade experimenting with coalition arrangements, to work their way back to victory.

Issues in Gastroenterology and Hepatology: 2013 Edition ScholarlyEditions

Until now, an important aspect of multicultural counseling has been long overlooked amid the profusion of literature—the practical application of multicultural theory. *Social Justice, Multicultural Counseling, and Practice: Beyond a Conventional Approach* fills this void and tackles some of the top challenges in multicultural counseling including how to implement multicultural theory and how to practice social justice and equity. This groundbreaking work takes a multilayered and multidimensional approach that will help practitioners "walk the talk" of multicultural competency. It introduces a new model that will give practitioners a clearer understanding of the client's worldview for culturally appropriate assessment, diagnoses, and treatment. Key Features Provides Concrete Strategies boxes for introduced concepts Emphasizes self-reflection and self-awareness for practitioners Contains exercises to help practitioners better understand ethnocentrism, types of thinking styles, and automatic thought patterns Examines the complexities of the intersection of multiple identities and sociocultural contexts Includes a unique organization style that groups topics by various "isms" (ageism, classism, racism, etc.) Intended Audience Based on holistic thinking and transformative learning styles, this core text is ideal for graduate courses in counseling, psychology, or social work.

Management Routledge

In this accessible introduction to communication activism, organizer Karen Jeffreys and sociologist Charlotte Ryan draw on more than two decades of ongoing collaboration, using the Rhode Island Coalition for the Homeless (RICH) as a case study. The book examines a community with shared values, decision-making, and conflict resolution procedures, tracking its organizing strategy and matched communication plan. The authors first describe a communication campaign during the welfare reform battles (1990–1995) in which they began to practice communication activism. In ongoing work with two organizations over the next two decades, they distill a model of communication activism that draws directly from vibrant traditions of empowerment communication in U.S. social movements and movements from the Global South. *Beyond Prime Time Activism* provides students and researchers with an invaluable look at contemporary activism practices and with practical tools tried and tested in two decades of social movement engagement. This book is ideal for anyone participating in social change movements or studying how they navigate communication and media inequalities.

Companion to the standing orders and guide to the proceedings of the House of Lords Corwin Press

Daytime soap operas. Evening news. Late-night talk shows. Television has long been defined by its daily schedule, and the viewing habits that develop around it. Technologies like DVRs, iPods, and online video have freed audiences from rigid time constraints—we no longer have to wait for a program to be "on" to watch it—but scheduling still plays a major role in the production of television. Prime-time series programming between 8:00 and 11:00 p.m. has dominated most critical discussion about television since its beginnings, but *Beyond Prime Time* brings together leading television scholars to explore how shifts in television's industrial practices and new media convergence have affected the other 80% of the viewing day. The contributors explore a broad range of non-prime-time forms including talk shows, soap operas, news, syndication, and children's programs, non-series forms such as sports and made-for-television movies, as well as entities such as local affiliate stations and public television. Importantly, all of these forms rely on norms of production, financing, and viewer habits that distinguish them from the practices common among prime-time series and often from each other. Each of the chapters examines how the production practices and textual strategies of a particular programming form have shifted in response to sweeping industry changes, together telling the story of a medium in transition at the beginning of the twenty-first century. Contributors: Sarah Banet-Weiser, Victoria E. Johnson, Jeffrey P. Jones, Derek Kompare, Elana Levine, Amanda D. Lotz, Jonathan Nichols-Pethick, Laurie Ouellette, Erin Copple Smith
