It's 1989 and, whenever he isn't hanging out in the local bars, Herr Lehmann lives entirely free of responsibility in the bohemian Berlin district of Kreuzberg. Through years of judicious sidestepping and heroic indolence, this barman has successfully avoided the demands of parents, landlords, neighbours and women. But suddenly one unforeseen incident after another seems to threaten his idyllic and rather peaceable existence. He has an encounter with a decidedly unfriendly dog, his parents threaten to descend on Berlin from the provinces, and he meets a dangerously attractive woman who throws his emotional life into confusion. Berlin Blues

is a richly entertaining evocation of life in the city and a classic of modern-day decadence.

This volume approaches contemporary multilingualism as a new linguistic dispensation, in urgent need of research-led, reflective scrutiny. The book addresses the emergent global and local patterns of multilingual use and acquisition across the world and explores the major trends that characterize today's multilingualism. It is divided into three parts on the basis of the broad themes: education (including multilingual learning in its general, theoretical aspects), sociolinguistic dimensions and language policy. WINNER OF THE 2007 CHLA BOOK AWARD! Children's literature has transcended linguistic and cultural borders since books and magazines for young readers were first produced, with popular books translated throughout the world. Emer O'Sullivan traces the history of comparative children's literature studies, from the enthusiastic internationalism of the post-war period – which set out from the idea of a supranational world republic of childhood – to modern comparative criticism. Drawing on the scholarship and children's literature of many cultures and languages, she outlines the constituent areas that structure the field, including contact and transfer studies, intertextuality studies, intermediality studies and image studies. In doing so, she provides the first comprehensive overview of this exciting new research area. Comparative Children's Literature also links the fields of narratology and translation studies, to develop an original and highly valuable communicative model of translation. Taking in issues of children's 'classics', the canon and world literature for children, Comparative Children's

Literature reveals that this branch of literature is not as genuinely international as it is often fondly assumed to be and is essential reading for those interested in the consequences of globalization on children's literature and culture.
