Middle School Life Science Teacher's Guide is easy to use. The new design features tabbed, loose sheets which come in a stand-up box that fits neatly on a bookshelf. It is divided into units and chapters so that you may use only what you need. Instead of always transporting a large book or binder or box, you may take only the pages you need and place them in a separate binder or folder. Teachers can also share materials. While one is teaching a particular chapter, another may use the same resource material to teach a different chapter. It's simple; it's convenient.

This volume represents the wisdom of the ascended masters condensed into concise keys that serve as a spiritual guide. There are 420 golden keys that present the multitude of methods, techniques, affirmations, prayers, and insights Dr. Stone has gleaned from his own background in psychology and life conditions and his thorough research of all the ancient and contemporary classics that speak of the path to God realization. The teachings of Sai Baba and other ascended masters are at the core of these keys, and the author has

also drawn up on various spiritual scriptures such as the Bhagavad-Gita and the Bible. Especially valuable are practical methods to support the ascension process, such as journal writing and spiritual logs, as well as meditations and prayers.

In addition to offering a comprehensive understanding of the art of tongue diagnosis, this book includes ancient and modern healing practices based on Healing Tastes, Herbal Therapies and Dietary Protocols. The knowledge contained in this book is invaluable for

supporting oneself and others on the journey to wholeness. The educational foundation of the book prepares us to really understand the meaning and use of tongue diagnosis. The ancient art of tongue diagnosis, as this book defines it, is the science of the shape, shadings and markings of the tongue, which describe the current state of an individual's health, as well as their inherited constitution. The potential of tongue diagnosis is that it gives a non-invasive way to measure the tissue integrity of the body, especially the Agni of the digestive system or the Fire or strength of the digestive system. This can be assessed by simply observing the color and structure of the tongue, then we have a very simple way to take preventive steps to correct those imbalances, and we have a very simple feedback system, meaning the tongue's color, size, shape and shading, to let us know how successful our approach has been.
