Set in an experimental hospital for the criminally insane in the 1950s,

CONFINEMENT is loosely based on the author's one year residency in a psychiatric center, when lobotomies and other equally cruel treatments were rampant, and when the highly-experimental "Insulin Therapy" was in vogue. The focus of the story is Duffino, an attractive girl in her early 20s, sent to the mental hospital when she refuses to defend herself at trial for the highly publicized, gang-related murder of her boyfriend's rival.

Refusing to speak, Duffino is ordered locked-up until she's willing to talk. The richness of the story unfolds with Duffino's relationship to the other inmates, all in for violent crimes, including her obese roommate, Charlotte, who was sentenced for murdering a nun. Charlotte

becomes obsessed with Duffino, and will not let up until she speaks. Throughout the course of the story, we see flashbacks of Duffino's romantic life on the gang-infested streets, juxtaposed with flashbacks of Charlotte's severe life in the convent; after much tribulation, the inmates slowly come to learn why they did the crimes they did, as they make us question the true nature of guilt. Between the horrifying treatments, the group therapy sessions, the flashbacks to violent crimes, the question of whether Duffino will talk, and the constant hope of escape, CONFINEMENT is a page-turning psychological thriller, in the vein of *One Flew Over the Cuckoo's Nest*.

Sebuah surat kaleng dikirimkan kepada enam laki-laki yang dulu mengikuti kegiatan Pramuka semasa

sekolah. Surat itu berisi ancaman yang akan membuka rahasia masing-masing jika mereka tidak datang ke suatu tempat. Langsung saja Raja, Taufan, Farhad, Reino, Amril, dan Mustofa, meninggalkan rutinitas sehari-hari dan menuju lokasi yang diperintahkan. Petualangan pun dimulai. Di setiap perhentian muncul pesan berisi teka-teki baru yang mesti mereka pecahkan agar dapat bertemu dengan si pengirim surat. Dalam perjalanan itu kenangan akan kemping, kegiatan berlatih sandi, sampai jambore di Norwegia, kembali hadir di ingatan mereka. Tak disangka, apa yang kemudian mereka temukan, betul-betul di luar

dugaan mereka. Berlatar kegiatan Pramuka, novel Pesan Terakhir karya Wenny Smart ini berkisah tentang persahabatan dan ketegaran untuk mewujudkan cita-cita.

Internal Audit Wiley

"The prevalence of cyber-dependent crimes and illegal activities that can only be performed using a computer, computer networks, or other forms of information communication technology has significantly increased during the last two decades in the USA and worldwide. As a result, cybersecurity scholars and practitioners have developed various tools and policies to

reduce individuals' and organizations' risk of experiencing cyber-dependent crimes. However, although cybersecurity research and tools production efforts have increased substantially, very little attention has been devoted to identifying potential comprehensive interventions that consider both human and technical aspects of the local ecology within which these crimes emerge and persist. Moreover, it appears that rigorous scientific assessments of these technologies and policies "in the wild" have been dismissed during the process of encouraging innovation and marketing. Consequently, governmental organizations, public and private companies allocate a considerable portion of their operations budgets to protecting their computer and internet infrastructures without understanding the effectiveness of various tools and policies in reducing the myriad of risks they face. Unfortunately, this practice may complicate organizational workflows and increase costs for government entities, businesses, and consumers. The success of the evidence-based approach in improving the performances of a

wide range of professions (for example, medicine, policing, and education) leads us to believe that an evidence-based cybersecurity approach is critical for improving cybersecurity efforts. This book seeks to explain the foundation of the evidence-based cybersecurity approach, reviews its relevance in the context of existing security tools and policies, and the authors provide concrete examples of how adopting this approach could improve cybersecurity operations and guide policymakers' decision-making process. The evidence-based cybersecurity approach explained aims to support security professionals', policymakers', and individual computer users' decision-making processes regarding the deployment of security policies and tools by calling for rigorous scientific investigations of the effectiveness of these policies and mechanisms in achieving their goals in protecting critical assets. This book illustrates how this approach provides an ideal framework for conceptualizing an interdisciplinary problem like cybersecurity because it stresses moving beyond decision-

makers political, financial, social backgrounds, and personal experiences when adopting cybersecurity tools and policies. This approach is also a model in which policy decisions are made based on scientific research findings"--

Illustrated by the Author. Contents: Preface; How to Be Happy Through Rich or Poor; Rocks You are Likely to Bump on; Rovering. 'To sum up in a few words, success does not consist so much in gaining money and power as in gaining happiness. Many young men drift along with the rest of the crowd according to chance, and thus never reach happiness. From being passive be active. Don't drift. Take your own line. Paddle your own canoe. Only mind the rocks Avoid them by cultivating other qualities. Powell explains the 'rocks you are likely to bump on (Through herd temptation) Horses, betting and looking on at false sports. Wine, and other forms of self indulgence.

Women, dangers of a wrong attitude and blessing of the right one. Extremists in politics, irreligion, etc. Powell elaborates on the antidotes to the 'rocks (through individual effort) active hobbies, earning money, self-control, character, chivalry, health of mind and body, service for your fellow-men and for God. 'If you aim for it by practicing these safeguards, instead of being stranded among the rocks, you will win success and happiness. These and dozens of other inspiring maxims make this extraordinary book a useful companion for Scouts and Scout Leaders.

"Alif had never set foot outside of West Sumatra. He passed his childhood days searching for fallen durian fruit in the jungle, playing soccer on rice paddies, and swimming in the blue waters of Lake Maninjau. His mother wants him to attend an Islamic boarding school, a pesantren, while he dreams of public high school. Halfheartedly, he follows his mother's wishes. He finds himself on a grueling three-day bus ride from Sumatra to Madani Pesantren (MP) in a remote village on Java. On his first day at MP, Alif is captivated by the powerful phrase man

jadda wajada. He who gives his all will surely succeed. United by punishment, he quickly becomes friends with five boys from across the archipelago, and together they become known as the Fellowship of the Manara. Beneath the mosque's minaret, the boys gaze at the clouds on the horizon, seeing in them their individual dreams of far-away lands, like America and Europe. Where would these dreams take them? They didn't know. What they did know was: never underestimate dreams, no matter how high they may be. God truly is The Listener. The Land of Five Towers is the first book in a trilogy written by A. Fuadi—a former TEMPO & VOA reporter, photography buff, and a social entrepreneur. He went to George Washington University and Royal Holloway, University of London for his masters. A portion of the royalties from the trilogy are intended to build Komunitas Menara, a volunteer-based social organization which aims to provide free schools, libraries, clinics and soup kitchens for the less fortunate. Award-winning psychologist and educator Thomas Lickona offers more than one hundred practical strategies that parents and schools have used to help kids build strong personal character as the foundation for a purposeful, productive, and fulfilling life. Succeeding in life takes character, and Lickona shows how irresponsible and destructive behavior can invariably be traced to the absence of good character and its ten essential qualities: wisdom,

justice, fortitude, self-control, love, a positive attitude, hard work, integrity, gratitude, and humility. The culmination of a lifetime's work in character education from one the preeminent psychologists of our time, this landmark book gives us the tools we need to raise respectful and responsible children, create safe and effective schools, and build the caring and decent society in which we all want to live.

How did cranes come to symbolize matrimonial happiness? Why were magpies the only creatures that would not go inside Noah's Ark? Birds and bird imagery are integral parts of our language and culture. With her remarkable ability to dig up curious and captivating facts, Diana Wells hatches a treat for active birders and armchair enthusiasts alike. Meet the intrepid adventurers and naturalists who risked their lives to describe and name new birds. Learn the mythical stories of the gods and goddess associated with bird names. Explore the avian emblems used by our greatest writers--from Coleridge's albatross in "The Ancient Mariner" to Poe's raven. A sampling of the bird lore you'll find inside: Benjamin Franklin didn't want the

bald eagle on our National Seal because of its "bad moral character," (it steals from other birds); he lobbied for the turkey instead. Chaffinches, whose Latin name means "unmarried," are called "bachelor birds" because they congregate in flocks of one gender. Since mockingbirds mimic speech, some Native American tribes fed mockingbird hearts to their children, believing it helped them learn language. A group of starlings is called a murmuration because they chatter so when they roost in the thousands. Organized alphabetically, each of these bird tales is accompanied by a two-color line drawing. Dip into *100 Birds and How They Got Their Names* and you'll never look at a sparrow, an ostrich, or a wren in quite the same way. *100 Birds and How They Got Their Names*

Beauty Is a Wound New Directions Publishing
Twenty years after the publication of Howard Gardner's *Frames of Mind: The Theory of Multiple Intelligences*, Joe L. Kincheloe and the contributing authors of *Multiple Intelligences Reconsidered* critique and rethink the theory in new frames of reference. Initially drawn to multiple intelligences (MI) theory because of its self-proclaimed challenge to the psychology establishment, the authors delineate their disillusionment with its evolution over the last two decades. The critiques provided here open exciting new doors to innovation in educational psychology and pedagogy, and move the fields in the direction initially promised by MI theory. Each intelligence presented by Gardner is examined and critiqued, while larger concepts in the

theory are identified and assessed.
