Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in history—Doom and Quake—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. Masters of Doom is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and compassionate account of what it's like to be young, driven, and wildly creative. "To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular laboratory of his own bedroom, invents the universe from scratch. Masters of Doom is a particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosi Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with Queens of the Stone Age cranked up all the way."—Mark Leyner, author of I Smell Esther Williams

The inspirational and little-known story of welfare mothers in Las Vegas, America's Sin City, who crafted an original response to poverty--from the ground up In Storming Caesars Palace, historian

---

Annelise Orleck tells the compelling story of how a group of welfare mothers built one of this country's most successful antipoverty programs. Declaring "We can do it and do it better," these women proved that poor mothers are the real experts on poverty. In 1972 they founded Operation Life, which was responsible for many firsts for the poor in Las Vegas—the first library, medical center, daycare center, job training, and senior citizen housing. By the late 1970s, Operation Life was bringing millions of dollars into the community. These women became influential in Washington, DC—respected and listened to by political heavyweights such as Daniel Patrick Moynihan, Ted Kennedy, and Jimmy Carter. Though they lost their funding with the country's move toward conservatism in the 1980s, their struggles and phenomenal triumphs still stand as a critical lesson about what can be achieved when those on welfare chart their own course.
