WIPO Academy Education and Training Programs Portfolio - 2019 Routledge

Youth participation is not an end in itself, but a means of achieving positive changes in young people's lives and of building a better society, in recent years a growing number of initiatives promoting and strengthening youth involvement at different levels - international, regional, national and local - have emerged. New tools have been created for different actors working in this area. One such tool is the revised European Charter on the Participation of Young People in Local and Regional Life, adopted in May 2003 by the Congress of Local and Regional Authorities of the Council of Europe, it is a tool to support young people, youth workers, youth organisations and local authorities in promoting and enhancing meaningful youth participation at local and regional level across Europe. The manual "Have your say!" answers questions such as "What is real youth participation? What do I do with the charter? Why

should I be interested in this document?" and is targeted at youth organisations and young people who want to have their say as well as at governmental representatives who want to increase active youth participation.

About 550 registrants from 51 different countries attended the Seventh Ottawa Conference on Medical Education and Assessment in Maastricht. We received 525 abstracts for the conference, divided in thematic poster sessions and platform presentations. Organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous Ottawa conferences. During and after the conference about 250 papers were submitted for

publication in the conference proceedings, leaving us little time for a post-conference depression. Despite the large number of papers, the editors have attempted to review and edit the papers as care fully as possible.

Occasionally, however, correspondence exceeded reasonable deadlines, preventing careful editing of a small number of the papers. Although we felt that our editorial task was not quite finished, we nevertheless decided to include these papers. We thank the many authors for their enthusiastic and prompt response to - occasionally tedious - editorial suggestions and requests. We are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education. The editors want to thank Jocelyn Flippo-Berger whose expertise with desk top publishing and perseverance was a great

help.
