What is security, and what is its relationship to capitalism? George S. Rigakos' explosive treatise charts the rise of the security-industrial complex. Starting from a critical appraisal of 'productive labour' in the works of Karl Marx and Adam Smith, Rigakos builds a conceptual model of pacification based on practices of dispossession, exploitation and the fetish of security commodities. Rigakos argues that a defining characteristic of the global economic system is its ability to productively sell (in)security to those it makes insecure. Materially and ideologically, the security-industrial complex is the blast furnace of global capitalism, fuelling the perpetuation of the system while feeding relentlessly on the surpluses it has exacted.

Located in the mainland of Eastern North Carolina, Hyde County is a fascinating blend of beautiful wetlands--with an incredible assortment of wildlife--and rich, sweeping farmlands, which have played the principal role in yielding the economic prosperity for the county. Lake Mattamuskeet, the center and heart of Hyde County, has enjoyed a long and interesting history, one that has included early American Indian tribes, national business interests, New Deal government projects, and many generations of hunters and fishermen. Through an impressive collection of photographs, this volume will take you on a visual tour through the history of Lake Mattamuskeet, New Holland, and Hyde County over the past 100 years.
