Petrarch ' s revival of the ancient practice of laureation in 1341 led to the laurel being conferred on poets throughout Europe in the later Middle Ages and the Early Modern period. Within the Holy Roman Empire, Maximilian I conferred the title of Imperial Poet Laureate especially frequently, and later it was bestowed with unbridled liberality by Counts Palatine and university rectors too. This handbook identifies more than 1300 poets laureated within the Empire and adjacent territories between 1355 and 1804, giving (wherever possible) a sketch of their lives, a list of their published works, and a note of relevant scholarly literature. The introduction and various indexes provide a detailed account of a now largely forgotten but once significant literary-sociological phenomenon and illuminate

literary networks in the Early Modern period.

The Life of Ludwig van Beethoven is the first scholarly biography of Ludwig van Beethoven, covering Beethoven's life to 1816. Thayer became aware of many discrepancies in the already existing biographies of Beethoven, so in 1849 he sailed for Europe to undertake his own researches, learning German and collecting information. Still after many updates Thayer's biography of Beethoven is regarded as a standard work of reference on the composer.

Schiller's Poems: Selected and Edited With Introduction and Notes Sonnets, as a poetic name for his landlady, Luise Doro thea Vischer, a widow with two children and consider ably older than himself. But the concrete object of the adulation expressed in these poems is really a matter of indifference; they were evidently inspired in part by the extravagantly idealizing amatory dreams of a youth who has grown to manhood in monastic seclusion with out the least experience of love, in part by his tendency to soar aimlessly through the boundless spaces of the eternal and the infinite. If in the Phantasie an Laura identifies his love with the cosmic force that holds the universe together, in Laura am Klam'er he

hears, as in a trance, the multitudinous voices of nature and even the voice of God in the tones that come from Frau Vischer's piano; all creation reels about the love - rapt poet in Die seligen Augenblicke. An Wasser Flüssen Babÿlon Forgotten Books

Originally published in 1987, this volume charts the development of German song across a century and a half, relating it both to poetry and to the cultural scene in Germany. By emphasising genre rather than individual composers and while paying heed to acknowledged masterpieces - by quoting extensively from forgotten composers, the book avoids historical over simplification and arrives at a fuller picture of this rich tradition. In so doing, it uncovers much neglected material. The book investigates the relationship between German poets and composers and their native folk tradition. It further explores the interaction between convention and innovation and demonstrates how one

poem can be interpreted
quite differently by
different composers.
The book is accessible
both to students of
literature and music.
