Small and compact enough to be taken for your next dive trip

Coral Reefs Indonesia  
CSIRO PUBLISHING

Take a breathtaking plunge into the colorful world of the Coral Triangle, the waters that

---

cradle Indonesia, Malaysia, the Philippines, Papua New Guinea, the Solomon Islands and Timor-Leste. One of the world's most mature reef networks, home to 30 percent of all the world's coral, this magnificent marine expanse boasts the highest diversity of coral and fish species on the planet. Underwater photographer Chris Leidy beautifully captures a vision of this wonderland through his lens and conveys the inherent complexities of each singular, fleeting scene, illustrating the vital magic of the Coral Triangle. Comprising the most biodiverse ecosystems on our planet, oceans are humanity's life-support system, processing more carbon dioxide than

rainforests. Featuring a passionate text by Fabien Cousteau, *The Coral Triangle* presents the underwater world as a complex realm filled with vibrant life, inviting readers to fall in love with its majesty, and inspiring deeper understanding of the fragility of coral reefs and the unparalleled importance of taking action to protect our oceans.

*Coral Reef Crustaceans*  
Koeltz Scientific Books  
This is the most comprehensive guide to the tropical Indo-Pacific crustaceans. Produced by collaboration between experienced diver and photographer and leading scientists, this book covers the region from the Red Sea to Papua New Guinea. *Inside Coral Reef Crustaceans* from

---

Red Sea to Papua:  
Photographs of 900+ species; 400+ species have never before appeared in field guides or popular books; Easy access to information; All photographs taken in natural environment; No anaesthetic or sedatives substances were used on animals; Every effort was made to reduce disturbance to sea creatures

Frogfishes of the World

Createspace Independent Publishing Platform

The intriguing and colourful world of Polyclads - free-living marine flatworms.

Nudibranchs of the Coral Triangle

The most comprehensive photo guide to Maldivian coral reef life, covering fishes, sharks, rays, turtles, dolphins, invertebrates and marine plants - Designed for

divers and snorkelers - More than 1200 species, new records of fishes and invertebrates for the Maldives Islands - Easy access to information - Amazing facts in "DID YOU KNOW" sections - All photographs taken in natural environment, no anaesthetic or sedatives substances were used on animals - Every effort was made to reduce disturbance to sea creature

Fishes of the Mascarene Islands (Réunion, Mauritius, Rodriguez)

Nudibranchs of the Coral Triangle became the only guide to nudibranchs on the market with an up-to-date 2022 taxonomy after its major update (November 2022) This book is a field guide, an assistant for the identification of nudibranchs species in the region. It is designed for divers, underwater photographers. The book

---

presents 1060+ species nudibranchs that can be found and photographed in depths and regions accessible to recreational diving.

Photographs, showing color variations and age differences are included. A lot of species covered by this guide have never before appeared in field guides or popular books.

Compact text blocks provide information about Common name, Latin name, family, geographic distribution, size, and the most distinctive features. An extensive photo index at the beginning of the book helps you to find the right group of nudibranchs, especially for readers who have not yet mastered their names.

Nudibranchs or sea slugs occur throughout the world ' s oceans and are present in many marine habitats. The greatest diversity of species is found in the Indo-Pacific tropics with a concentration of species within the Coral

Triangle (CT), encompassing the waters of six Southeast Asian countries: Indonesia, Papua New Guinea, Philippines, Malaysia, Timor-Leste and Solomon Islands.

This global epicenter of marine biodiversity covers only 1.6 percent of the planet ' s oceanic area, but attracts an increasing number of divers and underwater photographers, including nudibranch lovers.

### Coral Reefs Philippines

The first and only photo guide solely dedicated to marine animals of Indonesia you are likely to see while diving or snorkeling.

Surrounded by two oceans and thirteen seas, with more than 17,000 islands and 5000 km West to East, Indonesia has one of the highest levels of marine biodiversity in the world.

Indonesia belongs to the coral triangle, an area with

---

more species of fish and corals than any other marine environment on earth. Inside Coral Reefs Indonesia: The most comprehensive photo guide to Indonesia marine life, covering fishes, turtles, invertebrates and marine plants; Designed for divers, snorkelers and marine life lovers; Features near 1600 species, among them new species and new records of fishes and invertebrates for the Indonesia; All photographs taken in the natural environment, no anaesthetic or sedatives substances were used on animals; Small and compact enough to be taken for your next dive trip

### The Coral Triangle

"The Talking Cure," takes its name from Sigmund Freud's original description of psychoanalysis. I made twelve sculptures- some of

the folks living in my brain made real. I then asked twelve writers- poets, novelists, screenwriters, and playwrights- to each choose a sculpture to which they related most intimately. Each wrote his or her imagined monologue of the goings on in the sculpture's mind. The next step in the game was to find twelve actors and have them each record one of the monologues. With minimum direction from me, they spoke their interpretations of the written pieces that had in turn been inspired by each sculpture. It's been like a game of "whisper down the lane" with each participant interpreting what they see or read and giving each next step a little tweak of their own. The audio recordings were coded and sent up onto the Inter-Web. When you

---

point your phone at the code  
it triggers the audios. And  
now, by looking, reading and  
listening to the work, you too  
will become part of the  
collaboration." --excerpted  
from The Talking Cure  
[introduction] -Melissa  
Stern, Feb. 12, 2012
