Unearth the origins of Napa Valley's prosperity. Chinese laborers were once the backbone of Napa Valley. Throughout the late 1800s, they toiled in the grape fields, mines, hop farms, leather tanneries and laundries, and carved out neighborhoods in towns throughout the Valley. These contributions did little to deter discrimination and Anti-Chinese Leagues sprang up to harass and intimidate immigrants like

Chan Wah Jack, who ran the successful Sang Lung store in Napa's Chinatown. In 1882, the Chinese Exclusion Act hastened the decline of local Chinatowns and these once vibrant communities disappeared while the industries they helped to foster flourished. Join author John McCormick as he uncovers the forgotten contributions of the Chinese people in California's most famous wine region.

Maxine Hong Kingston is known for using a distinctive blend of autobiography, fantasy, and folklore to explore the history, experience, and identity of Chinese Americans. This is exemplified in her first book, *The Woman Warrior*, winner of the National Book Critics Circle Award for nonfiction, a bestseller, and a staple on college and university syllabi. Although *The Woman Warrior* is by far her most celebrated book, Kingston has penned a wide range of essays, fiction, and poetry, including *China Men*, *Tripmaster Monkey*, *Hawai'i One Summer*, *To Be a Poet*, *The Fifth Book of Peace*, *I Love a Broad Margin to My Life*, and the edited volume *Veterans of War, Veterans of Peace*. *Understanding Maxine Hong Kingston* is the first book-length work to examine the entirety of Kingston's literary career, from *The Woman Warrior* to her most recent volume of poetry. Julia H. Lee weaves together scholarly assessments, interviews, biographical information, and her own critical analysis to provide a complete and complex picture of Kingston's works and its impact on memoir, feminist fiction, Asian

American literature, and postmodern literature. Lee examines the influence that previous generations of Asian American authors, feminism, and antiwar activism have had on Kingston's work. Offering important contextual information about Kingston's life, Lee shows how it has so often served as a starting point for Kingston's writing. Also studied are her complex attitudes toward genre, and her ever-evolving identity as a novelist, essayist, memoirist, and poet. A comprehensive bibliography of critical secondary sources will be an invaluable resource for readers and critics of Kingston's works. *Banished & Embraced* Arcadia Publishing San Francisco *Chinatown* is the first history of and guide to SF Chinatown written by someone born and raised there. *Journal of the Association of Chinese & American Engineers* Gale Cengage Examines the fiction and role in introducing the Asian American experience to mainstream readers through Maxine Hong Kingston and her three narrative works. *Little Manila Is in the Heart* Routledge An event of international significance, the

California gold rush created a more diverse, metropolitan society than the world had ever known. In *Riches for All*, leading scholars reexamine the gold rush, evaluating its trajectory and legacy within a global context of religion and race, economics, technology, law, and culture. The opportunity for instant wealth directly influenced a dynamic range of peoples, including Mormon military veterans, California Indian workers, both slave and free African Americans, Chinese village farmers, skilled Mexican miners, and Chilean merchants. *Riches for All* gives attention to the varying motivations and experiences of these groups and to their struggles with both racial and religious bigotry. Emphasizing gold rush social history, some contributors examine the roles and influence of women, workers, law-breakers, and law-enforcers. Others consider the long-term impact of this episode on California and the American West and on subsequent gold rushes in Pacific Rim countries and the Klondike. With lively and incisive strokes, these historians sketch the most broadly contextualized and nuanced portrait of the

California gold rush to date.

Chinatown Film Culture provides the first comprehensive account of the emergence of film and moviegoing in the transpacific hub of San Francisco in the early twentieth century. Working with materials previously left in the margins of grand narratives of history, Kim K. Fahlstedt uncovers the complexity of a local entertainment culture that offered spaces where marginalized Chinese Americans experienced and participated in local iterations of modernity. At the same time, this space also fostered a powerful Orientalist aesthetic that would eventually be exported to Hollywood by San Francisco showmen such as Sid Grauman. Instead of primarily focusing on the screen-spectator relationship, Fahlstedt suggests that immigrant audiences' role in the

proliferation of cinema as public entertainment in the United States saturated the whole moviegoing experience, from outside on the street to inside the movie theater. By highlighting San Francisco and Chinatown as featured participants rather than bit players, Chinatown Film Culture provides an historical account from the margins, alternative to the more dominant narratives of U.S. film history.

Stockton, referred to as Sam Fow by its Chinese community, was the third largest metropolitan area leading to the goldfields of California at the turn of the 20th century. The Chinese immigrants came from Kwangtung, China, to find their fortune, and instead found a series of restrictive laws aimed at keeping them from participating in the development of the burgeoning frontier town. Their story is here, in over 200 vintage images of community life and resilience. Despite legislation such as the Foreign Miners' taxes and the California Alien Land Act, and

most recently the construction of the Crosstown Freeway combined with the redevelopment project that disseminated the heart of Chinatown, the Chinese of this area were major contributors to California and Stockton's economy. They have maintained a balance between their heritage of familial and religious obligations and western education and activities. Included are photographs dating from the late 1920s of traditional Chinese associations and more recent community activities. These images showcase once thriving businesses, educational and religious efforts, and familial milestones.

During the height of racist anti-Chinese U.S.

immigration laws, illegal aliens were able to come into the States under false papers identifying them as the sons of those who had returned to China to marry and have children. American Paper Son is the story of one such Chinese immigrant who came to Wichita, Kansas, in 1935 as a thirteen-year-old paper son to help in his father's restaurant there. This vivid first-person account addresses significant themes in Asian American history through the lens of Wong's personal stories. Wong served in one of the all-Chinese units of the 14th Air Force in China during World War II and he discusses the impact of race and segregation on his experience.
