Numerous lesser known rivers and lakes have cooled my legs but not my enthusiasm as I roam this region with a constant spirit of anticipation and discovery. In a single lifetime, it would be impossible to fish all the water in and near the park, and a close relationship with even a handful is a significant accomplishment." --René Harrop, Learning

His home water, the Henry's Fork, is one of the most challenging spring creeks in the world, and over his lifetime fishing the Henry's Fork, he has developed legendary techniques and flies to meet the challenge. In Learning from the Water, René shares his wisdom on the importance of insect stages, the flies for a successful fly box, and how to plan and prepare for a trip to unfamiliar water. Chapters on midges, caddis, Flavs, Callibaetis, Tricos, PMDs, hoppers, beetles, aquatic wasps, and Baetis give solid inside information on each of these important insects as well as the patterns René uses to imitate them, patterns that inspire fly tiers the world over.
