The idea for this edited book came about due to the increased discussion and focus on leadership within the educational technology field and particularly in the Association for Educational Communications and Technology organization. There is a diverse amount of individuals in leadership in the field that contributed their lessons learned. This book focuses on sharing the lessons learned by leaders in the field on how they became a leader and what leadership means. The primary contributions address

three central questions. What is your story about how you became a leader? What lessons have you learned about being an effective leader? What advice would you give others to become a leader? In addition, this book spotlights the impact that past leaders have had on current leaders and upon the field of educational technology.

English ABC - Alford Book Club Lessons 1 to 7 with Teacher Guide John Wiley & Sons Since it first aired in 1966, Star Trek has led American television into a more progressive era by presenting a diverse cast interacting as equals, demonstrating expertise and efficiency as they lead a starship across the galaxy. To this day, the Star Trek franchise

strives to inspire viewers to find beauty in diversity and progress. In *Social Movements and the Collective Identity of the Star Trek Fandom: Boldly Going Where No Fans Have Gone Before*, David G. LoConto explores the development of the Star Trek fandom from its uncertain beginnings in the 1960s, to the popularity explosion in the 1990s and its triumphant return in 2017. LoConto analyzes the cultural phenomena of Star Trek through a social psychological approach, using symbolic interactionist and strategic ritualization theories, as well as ideas from Habermas and Foucault to track the fandom's movements, values, and evolution.

Prince Du Mon of Mars is a reluctant officer aboard the starship Socrates. However, he quickly finds himself thrust into danger when his best friend is killed by pirates, and a devastating creature arrives at the edge of inhabited space. The prince quickly learns two things: first, someone onboard wants him captured or dead; second, he

must now outwit a terrifying alien foe that he cannot comprehend. Set one thousand years in the future, this debut novel mixes the thrills of space opera and alien contact, with a coming of age story about friendship, learning, love, and loss.

Cognitive science research-based teaching techniques any educator can implement in their K-8 classroom In *Small Teaching K-8*, a team of veteran educators bridges the gap between cognitive theory and the K-8 classroom environment, applying the same foundational research found in author James Lang's bestselling *Small Teaching: Everyday Lessons from the Science of Learning* to the elementary and middle school setting. Via clear descriptions and step-by-step methods, the book demonstrates how to integrate simple interventions into pre-existing pedagogical techniques to dramatically improve student outcomes. The interventions consist of classroom or online learning activities, one-time additions, or small modifications in course design or communication. Regardless of their form, they all deliver powerful, positive consequences. In this book, readers will also find: Foundational concepts from up-to-date cognitive research that has implications for classroom teaching and the rationales for using them in a K-8 classroom Concrete examples of how interventions have been used by faculty in various disciplines

Directions on the specific timing of each intervention, backed by evidence-based reasons An essential resource for K-8 educators seeking ways to improve their efficacy in the classroom, *Small Teaching K-8* offers teachers intuitive and actionable advice on helping students absorb and retain knowledge for the long-term.

For 50 years, Star Trek has been an inspiration to its fans around the world, helping them to dream of a better future. This inspiration has entered our culture and helped to shape much of the technology of the early 21st Century. The contributors to this volume are researchers and teachers in a wide variety of

disciplines; from Astrophysics to Ethnology, from English and History to Medicine and Video Games, and from American Studies to the study of Collective Computing Systems. What the authors have in common is that some version of Star Trek has inspired them, not only in their dreams of what may be, but in the ways in which they work - and teach others to work - here in the real world. Introduced with references to Star Trek films and television shows, and illustrated with original cartoons, each of the 15 chapters included in this volume provides insights into research and teaching in this range of academic fields.

This book seeks to expand the research agendas on autonomy in language learning and teaching in diverse contexts, by examining the present landscape of established studies, identifying research gaps and providing practical future research directions. Based on empirical studies, it explores research agendas in five emerging domains: language learning and teaching in developing countries; social censure and teacher autonomy; learner autonomy and groups; learner autonomy and digital practice; and finally, learner autonomy and space. In doing so, it sheds new light on the impact of digital media, group dynamics and the application of ecological perspectives on learner autonomy. The contributors present a novel reconsideration of new learning affordances, and their discussion of spatial dimensions provides much needed expansion in the field.

This book will have international appeal and provide an invaluable resource for students and scholars of second language learning and higher education, as well as teacher educators. *So, You Want To Be a Teacher* Mfg Application Konsulting Engr As a prodigal child travels a trail to come to know again a love that makes no sense, God's love, this story of a mother's love reflects an even greater love—God's love for all. These lessons enliven a faith in a sovereign Savior, Jesus Christ, who loves the world, and orchestrates life even when we can't see His hand answering our prayers, sometimes responding to our petitions with a yes, other times saying, no, or not now, and often answering not how we think! Lessons from Momsense tells a make-you-laugh, make-you-cry story of a Baby Boomer mother and her prodigal child and that youthful rebellious generation, reminding us though momsense is universal, moms and mothering come in many forms. These lessons also include a bit of old as dirt grandmother momsense, too. Sharing stories that demonstrate God's transforming love, and the power

of prayer, these narratives of hope encourage anyone of any generation to forgive, shun hate and come to know the love and truth that changes hearts and lives—forever.

*Linking for learning : a new course for education.* Lexington Books

In the 1960s, a generation was introduced to a crew of people who were going 'where no man has gone before'. After it was cancelled, fans began watching the show in reruns, going to conventions to hear the stars talk about their experiences, and collecting paraphernalia from the show. The Trekkie was born. Since then the Star Trek franchise has boomed, and the fandom has grown along with it. This book gathers, for the first time, stories of how Star Trek has touched people's lives, by people who think that Star Trek isn't just a show, but a way of life.

So, You Want To Be a Teacher

By Charles J.Mertz: In a time when educating America's children seems more important than ever, more demanding of teachers and staff, and increasingly criticized, Mertz offers some practical, useful ways to improve the art and practice of teaching. From discussing the necessity of having one's own, personal philosophy of teaching to suggestions on dealing with students, fellow teacher, and administrative staff, Mertz stresses personal interaction, attention paid to the individual, and above all, the ability to turn every question and classroom occurrence into a teaching opportunity. This is a "must read" for anyone contemplating entering the teaching profession . . . and an entertaining read for anyone who has ever taught.
