This monograph is the first large-scale corpus analysis of French *il y a* clefts. While most research on clefts focusses on the English 'prototypical' *it*-cleft and its equivalents across languages, this study examines the lesser-known *il y a* clefts - of both presentational-eventive and specificational type - and provides an in-depth analysis of their syntactic, semantic and discourse-functional properties. In addition to an extensive literature review and a comparison with Italian *c'è* clefts and with French *c'est* clefts, the strength of the study lies in the critical approach it develops to the common definition of clefts. Several commonly used criteria for clefts are applied to the corpus data, revealing that these criteria often lead to ambiguous results. The reasons for this ambiguity are explored, thus leading to a better understanding of what constitutes a cleft. In this sense, the analysis will be of interest to specialists of Romance and non-Romance clefts alike.

Historians of French politics, art, philosophy and literature have long known the tensions and fascinations of Louis XV's reign, the 1750s in particular. David Charlton's study comprehensively re-examines this period, from Rameau to Gluck and elucidates the long-term issues surrounding opera. Taking Rousseau's *Le Devin du Village* as one narrative centrepiece, Charlton investigates this opera's origins and influences in the 1740s and goes on to use past and present research to create a new structural model that explains the elements of reform in Gluck's *tragédie* for Paris. Charlton's book opens many new perspectives on the musical practices and politics of the period, including the *Querelle des Bouffons*. It gives the first detailed account of *intermezzi* and *opere buffe* performed by Eustachio Bambini's troupe at the *Paris Opéra* from August 1752 to February 1754 and discusses Rameau's comedies *Platée* and *Les Paladins* and their origins.
