The American M1  
Abrams main battle  
tank is a  
revolutionary design:  
it broke an  
evolutionary  
development lineage  
from the M20 medium  
tank of 1941 to the  
M60 (which it  
replaced, and which  
stayed in production

until 1987). The M1  
remains the only main  
battle tank in the  
inventories of the US  
Army and the US  
Marine Corps, with  
years of service to  
come, while no  
replacement has been  
procured. It is  
believed that the M1  
will easily serve for  
more than 50 years in  
the US alone. The US  
retains about 6,000  
M1s, while almost  
2,000 are in use with  
the armies of other  
countries including

Australia, Egypt,  
Iraq, Kuwait, and
